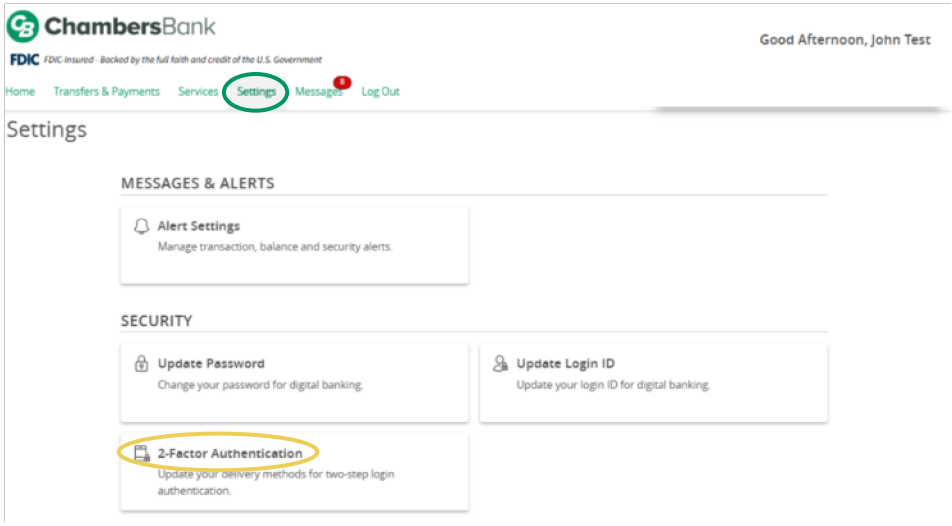
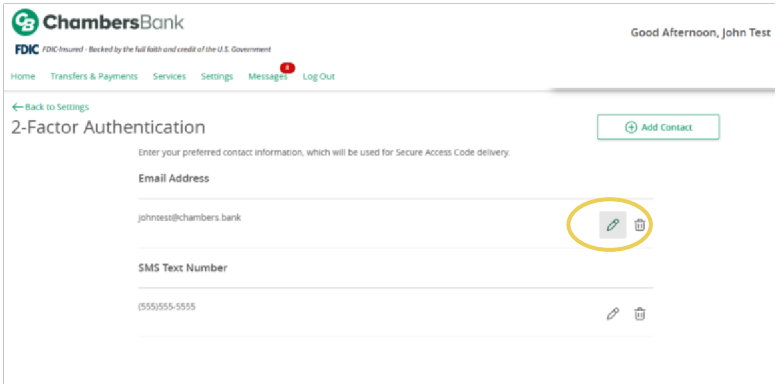
HOW TO UPDATE 2-FACTOR AUTHENTICATION IN DIGITAL BANKING

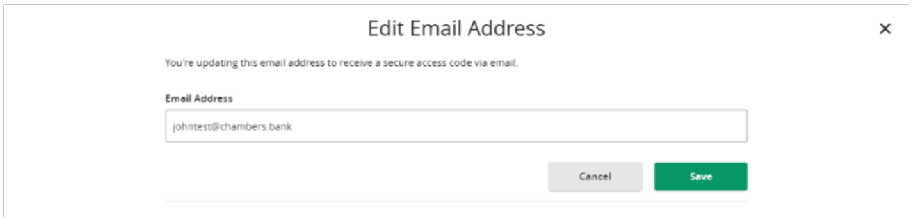
- Select “Settings” in the top menu, then choose “2-Factor Authentication.”



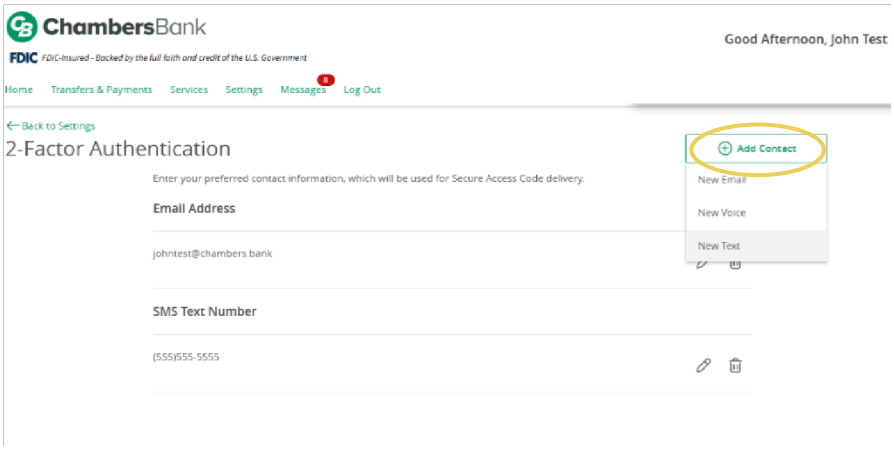
- Select the pencil to the right of the contact information you need to update.

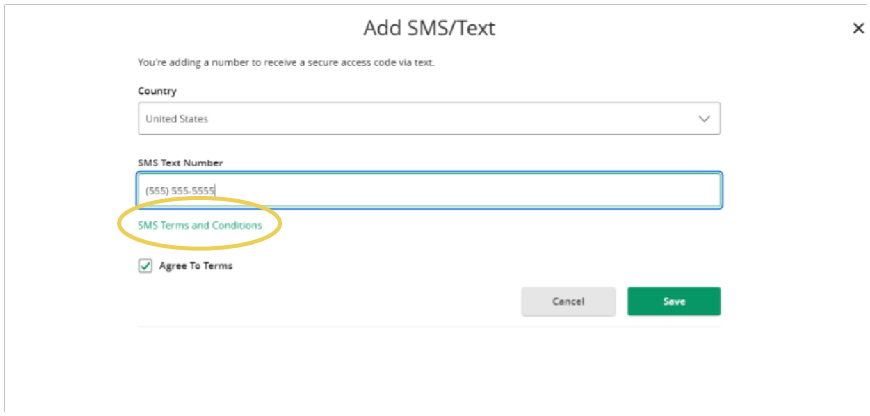


- Enter your new contact information, then click or tap “Save.”



- To add new contact information, select “Add Contact,” then enter your new contact information.





- For SMS Text, you’ll need to select “SMS Terms and Conditions.” Check the box next to “Agree to Terms,” then click or tap “Save.”
