

HOW TO UPDATE YOUR LOGIN ID IN DIGITAL BANKING

- Select “Settings” in the top menu, then choose “Update Login ID.”

The screenshot shows the ChambersBank digital banking interface. At the top, the logo and name 'ChambersBank' are on the left, and 'Good Afternoon, John Test' is on the right. Below the header is a navigation bar with links: Home, Transfers & Payments, Services, Settings (highlighted with a green circle), Messages (with a red notification bubble), and Log Out. The main content area is titled 'Settings' and contains two sections: 'MESSAGES & ALERTS' with an 'Alert Settings' option, and 'SECURITY' with three options: 'Update Password', 'Update Login ID' (highlighted with a green circle), and '2-Factor Authentication'.

- Enter new Login ID and select “Save new Login ID.”

The screenshot shows the 'Update Login ID' form in the ChambersBank digital banking interface. At the top, the logo and name 'ChambersBank' are on the left, and 'Good Afternoon, John Test' is on the right. Below the header is a navigation bar with links: Home, Transfers & Payments, Services, Settings, Messages (with a red notification bubble), and Log Out. The main content area is titled 'Update Login ID' and contains a 'Back to Settings' link. Below the title is a text prompt: 'Type your desired new Login ID in the field below.' This is followed by a 'Login ID Requirements' section with a list item: 'Login ID must be between 6 and 18 characters.' Below this is a text input field labeled 'New Login ID'. At the bottom is a green button labeled 'Save new Login ID'.
